

Infant Mortality & Prevention

Activities

The program strives to abstract and review all cases of infant death with the exception of cases under prosecution. An annual report is developed based on the collected data and recommendations for community action are made.

Mission Statement

The FIMR program seeks to reduce the rate of infant mortality in Jackson County by identifying all of the social, cultural, economic, health, safety, and system factors contributing to infant death.

Strategic Plan Impact

✓ **Healthy Community**

The goal of the FIMR Program is to reduce the rate of infant mortality in Jackson County by identifying the social, cultural, economic, health, safety, and system factors contributing to infant death. It is charged with designing and implementing interventions that address these factors to improve community resources and service. It is a continuous cycle of improvement involving data gathering, case review, community action, and changes in community service systems.

Accomplishments

- ✓ The Jackson County FIMR Case Review Team held 9 meetings and reviewed 14 infant deaths occurring in 2008. 11 infant deaths were reviewed in 2009.
- ✓ Three Safe Sleep presentations were provided to the community reaching over 600 individuals.
- ✓ 49 cribs were distributed in conjunction with safe sleep educational materials.
- ✓ More than 285 prenatal resource packets were distributed to pregnant women applying for Medicaid Health Insurance.
- ✓ 475 infant t-shirts and 1445 infant sleep sacks with safe sleep messaging were distributed to infants born at Allegiance Health.
- ✓ 200 Preterm wallet cards educating women on the signs of pre-term labor were distributed in an effort to reduce prematurity, a leading cause of infant mortality.
- ✓ 450 Safe Sleep brochures
- ✓ Two Public Health Nurses and three social workers from the Maternal Infant Health Program completed bereavement training.
- ✓ JCHD Staff assisted in the coordination and collaboration of the House to House Program reaching women of child bearing ages including teens in a targeted community.
- ✓ 92 educational sessions in the House to House Program included women's health, pregnancy education, family planning, and prenatal care reaching 900 women.
