

Crouch Senior Center
Assistive Technology Workshop

Monday, December 16

1:00 p.m.

Dining Room

Small Changes/BIG DIFFERENCES

As we grow older, we experience changes in hearing, memory, vision and mobility. Many times these changes create the need to do everyday things a little differently. If you, a family member or friend are experiencing any of these age related changes, Assistive Technology devices and services may be helpful. Join this presentation on Assistive Technology devices, discuss how they can be used, and try the devices!

Presenter: Glen Ashlock, Area Agency on Aging Region 2
