

Dementia is a puzzling condition, with many pieces that do not seem to fit together

The Jackson County Department on Aging offers a one-hour seminar to help put the pieces of dementia together

Participants will learn:

- ◆ The myths and facts associated with dementia
- ◆ How dementia affects each element of thought
- ◆ Ways to communicate with a person who displays symptoms of dementia

For more information about bringing this educational seminar to your business or organization, please contact Jennifer Guthrie at (517) 768-8652 or jguthrie@co.jackson.mi.us
